2 VALUES

CONFIDENCE

In the cryptocurrency market, Trust is paramount. That means full transparency not only in the community support and development, but also in any security effort.

Examples include top-grade audits of \$AMT's code, and liquidity tokens being burnt to strongly reduce any risk of malicious behavior. We also will lock liquidity (YEARLY LOCKED) in order to have total transparency and trust!

TRANSPARENCY & COMMUNITY

Amethyst Green Token is completely decentralized and supported by the owner from whom it will do marketing and carry out the whole roadmap together with its community of enthusiasts. Free, open and clear communication is encouraged within community supporters so that all who wish can be informed and even participate in every stage of Amethyst Green Token's growth! Multiple, independent and free group efforts in development, community self-management with ideas and more are strongly encouraged!

LONGEVITY

Amethyst Green Token is long term, we have a roadmap for 2025 and beyond! The decentralized community is fostering the long-term development of the BIG ecosystem that will translate into real use cases, like the financial platform, our Crypto and blockchain, that will really give a lot of rewards and will survive beyond any temporary trends!

Amethyst Green Token (AMT) is a deflationary , decentralized usage rewards mechanism token on the BEP-20 network located in the Binance Smart Chain, has a 6% tax for each trade executed, was created on August 7, 2021. But trading on PancakeSwap will start on September 1, 2021 Will act as "governance" for the website (www.amethystcoin.finance) we also aim to develop an entire Cryptocurrency and our own Blockchain, read our roadmap for more information (Page 5). Contract Address of Amethyst Green Token (\$AMT) is: 0xB318ccc045E618EEBb9AbAe3FD2c46B31bF31490

The total Supply of **Amethyst** is 100 Billion, from which two types of burning phase will be applied, one mechanism is automatic (1% tax for each trade) and the second is manual, both at the start of the token and in the future, we of the Amethyst community want to create a token with a limited supply, Liquidity will be blocked too of course ! for the roadmap and Tokenomics see the pages N. 4/5! Furthermore, we of the team aim to create too our crypto and our blockchain, with an attached finance and farming site. such as staking, yield farming etc...

4 TOKENOMICS

Our BEP-20 token, owned in Binance smart chain (BSC) **Amethyst** is a deflationary , decentralized and has a total tax of 6% and two burn mechanisms, automatic and manual. The 6% tax for every trade includes: 2% for each trade that will be redistributed to all HOLDERS of Amethyst Green Token, 3% is automatically blocked in the Liquidity Pool on PanckakeSwapV2 and finally, 1% is automatically burned to a dead address (0x000 .. .dead) It is also an anti-whale mechanism, 7% of the supply will be kept by the owner for the continuous research and development of our project, obviously, the Liquidity will be blocked for years, in order to have total transparency on our part! Furthermore, we are following how a Canadian startup is going that will lead to the beginning of a new totally infinite nuclear fusion energy, without radioactive waste, therefore 100% green that will end in a few years, we would like to do some of our projects based on this too if it were ever possible.

Q1/2021 - LAUNCH

- Website Launch ✓
- 1,000 Holders ✓
- 1,500+ Telegram Members ✓
- CoinGecko/Cmc Listing
- 5,000+ Holders

Q2 - GROWTH & ECOSYSTEM

- 5,000+ Telegram Members
- 10,000+ Holders
- 10,000+ Telegram Members
- Amethyst Cryptocurrency & Blockchain
- 20,000+ Holders

Q3 - EXPANSION & UTILITY

- Marketing ,Partnership & Audit
- Requesting Binance Launchpad
- Listing of the token and crypto in the best exchanges
- 15,000+ Telegram Members
- 35,000+ Holders

Q4 - FINALIZATION OF AMETHYST FINANCE

- Official Amethyst dex platform + exclusive
- More listing & more DEX/CEX
- 50,000+ Telegram Members
- 100,000+ Holders
- Mobile Application & improvements
